We want to hear your opinions about the future of historic preservation in New Jersey! The New Jersey Historic Preservation Office is preparing a Historic Preservation Plan for New Jersey. Its purpose is to guide statewide historic preservation planning and decision-making, to provide direction for federal preservation expenditures, and to guide State, county, and local government agencies, private organizations and individuals in their efforts to protect and preserve New Jersey's rich and diverse history. The goal is to develop an integrated Plan, combined with the activities of other preservation and planning organizations, so that New Jersey's preservation actions address priority needs to protect our treasured resources for the future.

In creating a new Plan to guide us in the next five years, the New Jersey Historic Preservation Office is working with Preservation New Jersey and others to find out what actions we should take to preserve New Jersey's valuable historic resources. Hearing your opinions is a vital step in developing a revised five year plan for historic preservation in New Jersey.
